Once the Order has been received from the Customer, it is Var Group's right to accept it or not on the basis of its own business, technical and organisational needs, and on the basis of elements capable of casting doubts about the Customer's solvency or in the presence of negligence of the latter in providing the documentation necessary and required by Var Group. Execution of the Order by Var Group implies tacit acceptance of the Order.

The Customer may not make any request for compensation for damage or claims of any kind in the event of non-acceptance of its Order by Var Group, without prejudice to the right to have the price refunded, if already paid. The right to further claims and indemnities is expressly excluded.

(4) SHIPMENTS AND DELIVERY TERMS OF PRODUCTS OR PERFORMANCE OF SERVICES

The Customer expressly acknowledges having independently chosen, under its own exclusive responsibility, the Goods and related Manufacturers responsible for manufacturing the Goods.

For shipments, under the terms of Art. 1510 of the Italian Civil Code, the risk of total or partial deterioration or accidental damage passes to the Customer from the moment in which the Goods are handed to the carrier or other shipper. In any case, Var Group will not be liable for the loss and/or damage of the product from the moment of delivery of the Goods to the carrier at its warehouse. In the same way, Var Group will not be liable for any delivery errors due to mistaken or equivocal indication of the address by the

Customer. All the risks of the shipment are borne by the Customer even when the contract concluded with the carrier makes a derogation from Art. 1510 of the Italian Civil Code. If the shipment is delayed for circumstances attributable to the Customer or in any case due to any fact not involving Var Group, the delivery is understood as for all purposes made with a simple notice of goods ready by Var Group and all charges, expenses and any damage deriving from such delay will be borne by Customer.

Ownership of Goods will pass to the Customer on delivery of the same to the address indicated in the Order and/or Contract or, if not indicated, to the Customer's address.

Delivery will be considered validly made, for all purposes of law and contract, in the place agreed, even if the transport document is signed by employees of the Customer or, more generally, by collaborators appointed or staff of any type of the Customer itself. Therefore, the Customer assumes the burden of organising the withdrawal and identifying the subjects responsible for it, ratifying now for then the statements signed by the said subjects.

From the delivery date, all risks and responsibilities related to the Goods themselves, even if deriving from chance events or force majeure, will be completely the Customer's responsibility.

The terms of delivery of the Goods or performance of the Services, unless otherwise agreed in writing, are indicative and not essential for the interests of the parties.

If execution of the Order and/or Contract is made impossible or in any case more onerous by unintentional causes, Var Group may terminate the Order and/or Contract, communicating the reason that justifies withdrawal.

In any case, in relation to the terms of delivery of the Goods or performance of the Services:

- any delay by Var Group in executing the Order and/or Contract shall not entitle the Customer to any claim to compensation, indemnities or cash payments;

If provided for in the Order and/or Contract, the Goods are supplied together with the Warranty Extension and/or with the Manufacturer's maintenance and assistance service (generally defined as "Support"). In this case and whether applicable, the Customer undertakes to accept now for then the terms and conditions of the Warranty Extension and/or the Manufacturer's maintenance and assistance service.

In the case of sale of Software of third-party Manufacturers, the Customer undertakes to accept the Licence contract (also called "End User License Agreement") in the ways provided for in the same.

In any case, pursuant to Art. 1462 of the Italian Civil Code, the Customer shall not suspend in any way

or for any reason the payment of the prices in progress, as all claims, actions or demands regarding the Supplies made by Var Group shall be made after correct and full payment of the amounts agreed.

In case of non-payment at the agreed deadlines, or any other event that determines or leads to suspicion of non-fulfilment by the Customer, Var Group will be entitled to declare the acceleration clause pursuant to Art. 1186 of the Italian Civil Code as having come into effect, making all Var Group's receivables from the Customer immediately enforceable; in this case, Var Group will have the right to suspend the delivery of the Goods not yet delivered or to terminate immediately for cause all contracts in force, with no indemnity, refund or obligation to compensate the Customer.

The same right, with the option to suspend or consider the contract terminated for cause with no obligation of indemnity or refund, is granted to Var Group if, before shipment of the Goods (even if related to an order already formally accepted), the ordering Customer is found to be doubtfully solvent or non-compliant with the economic and financial rating parameters established by the leading rating agencies operating on the market.

Acceptance of partial payment or the delay or failure by Var Group to exercise or enforce any of its rights under this General Terms and Conditions and Order or Contract shall not constitute or be deemed a waiver of Var Group's right thereafter to enforce those rights, nor shall any single or partial exercise of any such right preclude any other or further exercise thereof or the exercise of any other right.

(6) EXCLUSION OF WARRANTY FOR HARDWARE AND SOFTWARE SUPPLIES AND RELATED SERVICES OF THE MANUFACTURERS

Sales of Hardware and Software made by Var Group regard Goods that are made by third-party Manufacturers and occur therefore with express exclusion of any form of warranty related both to good functioning and to the presence of redhibitory defects.

Var Group does not give any guarantee/warranty on the Goods sold and is therefore exempted from any specific warranty obligation, both under the terms of art. 1490 of the Italian Civil Code, and under the terms of Art. 1497 of the Italian Civil Code. The purchase of hardware, software or other IT applications from Var Group entails full application of the warranty conditions, also subject to the Warranty Extension, provided directly by the Manufacturers, of which the Customer may make use at any time in the terms and in the forms time to time established by them.

If the Customer purchases hardware and/or software maintenance and assistance services provided by the Manufacturer (e.g. service suites, care packs, Licence maintenance "support" services, etc.), the terms and conditions provided by the Manufacturer will apply in full and the Customer undertakes, now for then, if provided for, to accept their contents. Var Group does not assume any liability for any inaccuracies and/or non-correspondence of the technical characteristics of the Goods or of the software applications with respect to what is communicated by the Manufacturers. All commercial or advertising information provided by Var Group sales personnel before the purchase constitutes exclusively activity of orientation and support to Customers and does not replace or subrogate in any way the information on the technical specifications of the Goods that the Manufacturers advertise and communicate to the market.

Before proceeding with the purchase, the Customer has the specific obligation to assess, autonomously, the characteristics of the hardware and/or software Goods by consulting the related technical data sheets of the Manufacturer.

What is regulated in the present Clause. 7 does not apply to sales of proprietary Software of Var Group or of its subsidiaries pursuant to Art. 2359 of the Italian Civil Code.

If during execution of the Supplies it becomes necessary to carry out activities not contemplated in the Order and/or Contract, unless the Customer accepts to provide for their execution paying the necessary amounts in advance, Var Group shall have the right not to perform them.

If execution by Var Group of certain Services does not offer a guarantee for the safety of its staff or for successful completion of the Supply, or in the event of non-agreement on the price payable for Supplies not contemplated in the offer, Var Group has the right to suspend the Supply itself, deciding not to complete the Order without any liability, fees or costs associated with such decision. In this case, Var Group will be entitled to the amounts accrued for the activities executed up to then .

(8) METHODS OF PERFORMING AND EXECUTING THE SUPPLIES

During performance of the Supplies, both Var Group and the Customer, if the latter is directly involved in the activity to be performed, undertake to use management, technical and manual personnel, suitable and qualified, trained in advance for the specific activity and of a sufficient number in relation to the amount of the work and the delivery terms.

The Customer is obliged, at its expense, to ascertain in advance the state of conservation, storage and custody of the Goods and of the places owned by third parties involved in the Supplies agreed with Var Group.

The Customer shall plan the work, agreeing locally on the activities, so as not to interfere with Var Group's activities and so as not to cause work stoppages or interference for the latter.

Var Group undertakes to make all the Supplies agreed with its most suitable and sufficient organisation, of personnel, equipment and accessories and with anything else that may be necessary for the most rational and perfect performance of the services in question. In performance of the Supplies, the Customer undertakes to make available to Var Group modern and efficient equipment compliant with the accident prevention laws in force, so that in no case will damage occur or nuisance be created for persons or things.

The Customer undertakes in any case to indemnify Var Group against any claim that may be brought against it for any reason by personnel employed by it including cases of joint liability.

Var Group reserves the right to subcontract to third parties execution of the Supplies or parts of them; now for then, the Customer expressly authorises Var Group to subcontract the execution of Services - including partially - under the terms of Art. 1656 of the Italian Civil Code.

(9) INDUSTRIAL AND/OR INTELLECTUAL PROPERTY RIGHTS

Any material that is subject to industrial and/or intellectual property rights in favour of Third Parties and that is made available to the Customer through the supply, will be used by the Customer observing the rights of such Third Parties. The Customer assumes all liability in this regard, and undertakes, now for then, to indemnify Var Group and hold it harmless against any prejudicial consequence.

If the Customer breaches industrial or intellectual property rights of Var Group and/or of Third Parties, Var Group reserves the right to terminate the contract for cause, without prejudice to the right to compensation for any damages.

In the case of supplies of Software of third-party Manufacturers, the Customer undertakes to accept and observe the terms of the Licenses, which define the rights of use, the terms, the conditions, the limits on use of the Software and the liabilities of the Manufacturers of the Software. The Customer acknowledges that such License agreements apply between the Customer and the said Manufacturers, excluding any liability of Var Group.

(10) LIABILITIES

Var Group will not be liable in the event of delays and non-performance of the Supplies or malfunctioning of the Goods and/or Services and/or interruptions in the supply of Services that are caused by (a) force majeure, (b) tampering or actions on the Service or on the Goods, carried out by the Customer or by unauthorised third parties (c) malfunctioning of the terminals used by the Customer; (d) total or partial interruption of the Internet access service caused by telecommunications operators; (e) any other fact or circumstance not attributable to wilful misconduct or gross negligence of Var Group.

Var Group is relieved, now for then, of all liability regarding (partial or total) loss of data following an action carried out on the Customer's IT systems, since the Customer has an obligation to save its data on magnetic, optical or some form of external media in order to enable it to be recovered in the event of loss.

If Var Group's liability arises from or in connection with actions by a Third Party, the Customer may not demand from Var Group compensation more than that provided for in favour of Var Group itself in the contractual and non-contractual relationships with the same liable Third Party.

In any case, subject to mandatory liability under applicable law and with the exception of what is provided for in the following paragraph, if Var Group is held liable for total or partial non-fulfilment of its obligations arising from the agreed contractual relationships, the total compensation payable to the Customer may not exceed in any way 100% of the fee pursuant to the related Order and/or Contract.

(48) DATA TRANSPORT AND CONNECTIVITY

The Customer acknowledges and accepts that use of the services of internet to other internet nodes, not managed by Var Group, will be subject to the limitations and responsibilities established by each operator of the said services and must be performed observing the legislation in force in the countries hosting the said nodes and services, the international legislation on the subject, and the regulations on the use of the networks and nodes involved. It remains understood that Var Group assumes obligations of means and not of performance and that, therefore, no liability may be attributed if the supply of the Service, with the precise characteristics requested by the Customer, is affected by actions of third parties (by way of example but not exhaustive: Var Group supplier) and/or by the times of the related activation procedures. Var Group will not be liable if technical characteristics, suspensions, interruptions or malfunctioning of the Service attributable to another operator prevent or degrade the continuity and quality of the connectivity and data transport Services.

On this point, the Customer acknowledges and accepts that:

- the very nature of the Internet and data transport services does not make it possible to give any guarantee on the possibility of reaching any IP destination from all over the world and/or on the delivery and reception of e-mail messages, and even less to guarantee the secrecy and confidentiality of the same;
- the effective speed of the Internet connection depends on the degree of congestion of the network, on the quality of the access network and the Customer's systems; Var Group, therefore, is unable to guarantee that the nominal speed is effectively reached.
- the responsibility and duty of correct use of the network and the software, and correct loading of the initial data and correct use over time remains exclusively of the Customer, which must observe, in using the connection, the rules laid down in the law and good techniques.

The Customer will be exclusively liable for any direct or indirect damage deriving from breaches of this obligation, indemnifying and holding Var Group harmless, now for then, against any consequent cost, expense, damage or compensation.

(49) MANAGED SERVICES

The Services may be supplied by means of hardware equipment installed at the Customer's premises and granted in use to the same or by means of equipment present in the Data Center.

In the first case, the parties specify reciprocally that:

- the Customer will be fully responsible for the integrity and correct maintenance of the assets owned by Var Group that remain in its availability, undertaking to indemnify the owner against any damage, loss or defect of the same and undertaking also to return the same immediately at the end of the relationship, on penalty of having to compensate for the consequent damage;
- Var Group does not issue any warranty on the Goods granted in use to the Customer; therefore, the use of the material supplied entails for the Customer the full acceptance and application of the warranty conditions provided directly by the Manufacturers.

(50) ISP SERVICES – DOMAIN REGISTRATION

Var Group, on assignment by the Customer, will forward requests for registration of domains to the Authority responsible for this, without assuming any liability in the event of rejection of the registration request, or subsequent revocation. The Customer expressly authorises Var Group to make any modifications and changes to the data entered on registration and of the registering subject that is functional to providing the Service in accordance with the Var Group's needs.

In any case, the Customer is aware and accepts that Var Group is a mere intermediary for the transmission of the request to the Authorities responsible and will not be held liable for any damage suffered by the Customer in relation to the domain name registration activities. The Customer is aware that registered domain names are recorded in a public register held by the Authority responsible for this, which can be freely consulted by anyone interested.

(51) AUTHENTICATION CREDENTIALS

Access to Services that involve the use of an identification code (login) and a keyword (password) attributed to the Customer by Var Group and communicated to the same via confirmation e-mail.

The Customer undertakes to conserve and use these credentials with the maximum confidentiality and diligence, also in order to avoid use by unauthorised third parties

On this point, the Customer acknowledges and accepts:

- that knowledge by third parties of the aforesaid codes could enable the latter to use unduly the services in its name;

- that it will be held liable for any damage caused to Var Group and/or to third parties by the knowledge, or use, of the password and/or the UserID by third parties, also owing to failure to observe what is prescribed above;

- that it will communicate immediately in writing to Var Group any theft, loss or appropriation for any reason by third parties of the aforesaid codes.

The Customer assumes now for then all liability for direct or indirect damage caused to its data, to Var Group and/or to Third Parties as a consequence of non-observance of the above.

(52) SPECIFIC PROVISIONS ON DATA PROCESSING IN THE CLOUD

If the Service provides for the processing of personal data of which the Customer is the controller, Var Group undertakes now for then to accept appointment as Personal Data Processor pursuant to Art. 28 Regulation EU 2016/679 by the Customer, for the processing pursuant to the Service. The Server Farm Services supplied by the Var Group meet the international standards on information security ISO 27001:2013 and are compliant with the European legislation on personal data processing.

The data involved in the Server Farm Services transferred by the Customer, if not otherwise agreed, are located at the Data Center in Empoli, Via Piovola 138 or in any case in other data Centers located in Italian Territory in the legal availability of Var Group. The methods of saving, any mirroring and back-up of these data are established in the Order and/or Contract.

These data will not be communicated to Third Parties except for needs connected with contractual execution and to fulfil the obligations provided for in the law or regulations or at the request of the Competent Authorities.
